### UI/Ux Design

03/2025 – 03/2025

Creativa Hub

Alexandria, Egypt

Completed **40 Hrs** UI - UX, fostering the skills of Task Analysis A/B Testing Visua

# Skills

---

## Technical Skills

- **Frameworks & Libraries:** Proficient in Angular (v19), with knowledge of updates from previous versions (standalone components, signals, etc.)
- **Languages:** Strong in TypeScript and modern JavaScript (ES6+), with understanding of asynchronous programming (Promises, async/await)
- **Styling:** Expert in HTML5, CSS3, Sass, Tailwind CSS, Bootstrap, Flexbox, Grid, and responsive design principles
- **State Management & Reactive Programming:** Experienced with RxJS, Angular state management patterns, and reactive programming concepts
- **Routing & Performance:** Familiar with Angular Routing, lazy loading, route guards, and performance optimization techniques (change detection strategies, memoization)
- **UI Components:** Experienced with PrimeNG and Angular Material for rapid UI development and reusable components
- **Tools & Platforms:** Git, GitHub for version control; Figma for UI/UX design translation; basic knowledge of Docker and CI/CD pipelines
- **API Integration:** Skilled in integrating RESTful APIs and handling asynchronous data with proper error handling and caching strategies
- **Testing:** Basic knowledge of Jasmine, Karma, and understanding of unit and integration testing principles
- **Accessibility & SEO:** Awareness of web accessibility standards (WCAG) and SEO best practices for frontend development
- **Best Practices:** Adheres to clean code principles, modular architecture, and frontend development best practices including code reviews and version control workflows

## Personal Qualities

- Detail-oriented and accuracy-focused.
- Team player with good communication.
- Calm, step-by-step problem solver.
- Take initiative and small leadership roles.
- Organized and deadline-driven.
- Open to feedback and learning.
- Adaptable and thoughtful decision-maker.

# Projects

---

## DevFolio [↗](#)

### *Portfolio webSite*

A simple and responsive personal portfolio built using HTML, CSS, and JavaScript. The project includes sections like About, Services, Portfolio, and Contact. It was designed to showcase personal projects and skills in a clean and professional layout.

## BookMarker [↗](#)

A library of book store websites and links, providing easy access to various online book sellers

## Weather-API [↗](#)

Simple weather app fetching real-time data by city name using a weather API. Displays temperature, conditions, and location.

## Recpie [↗](#)

Recipe app built with Angular and Sass. Fetches and displays dynamic recipe data from an external API

## Games [↗](#)

Games showcase built with HTML, CSS, and JavaScript. Displays a collection of games using data fetched from a public API.

## Country App [↗](#)

Country info app built with Angular. Integrates with a REST API to display country details including flag, population, region, and more.

# Extracurricular Activities

---

## Alexandria Bibliotheca

2025 – present

### *Organizer*

Alexandria, Egypt

Volunteered at the Library of Alexandria, assisting in organizing events and gaining valuable teamwork and event management experience.
